

PRESIDENT'S MESSAGE

Dear Kentucky Dealers,

The 2026 Regular Session of Kentucky's General Assembly is officially underway, bringing an important opportunity for our industry to engage with policymakers on issues that directly impact auto dealers, our employees, and the communities we serve.

As legislators return to Frankfort, KADA is actively monitoring proposed legislation, strengthening relationships with lawmakers, and advocating for policies that support a fair, competitive, and business-friendly environment for Kentucky's dealers. Our primary focus this year is SB 94, addressing warranty reimbursement for dealers. The decisions made this session will have lasting effects on our industry.

Your involvement matters. Dealer voices and real-world perspectives help lawmakers understand how public policy impacts local businesses and customers across the Commonwealth. KADA will continue to share opportunities to engage throughout the session.

Beyond the Capitol, 2026 is shaping up to be an exciting and impactful year for our members. From expanded Kentucky Dealer University (KDU) classes and hands-on training opportunities to our annual convention, district meetings, and additional networking and educational events, there are countless ways to stay connected, informed, and engaged. These programs are designed to strengthen dealerships, develop future leaders, and bring our dealer community together. I encourage you to make the most of your KADA membership this year and join us at as many events as you can.

Kentucky is always represented well at the NADA Show, and I have no doubt this year will be no exception. For those of you attending, I hope that we can find time to catch up in fabulous Las Vegas.

KADA remains committed to keeping you informed, represented, and energized in 2026. We look forward to working alongside you—at the Capitol and beyond—as we move our industry forward together.

Onward!

Why Saying Goodbye to the Penny Could Have Compliance Implications

As you've probably noticed, the penny is disappearing! While still legal US tender, the US Mint is no longer producing pennies.

While it may seem trivial, especially in a dealership that rarely handles cash, there are real compliance issues with the discontinuation of the penny. Because the absence of the penny means rounding to the nearest nickel, it can create challenges under the truth in Lending Act, advertising rules, and sales tax. Support Senate Bill 94!

KADA is supporting Senate Bill 94, sponsored by Senator Mike Wilson of Bowling Green. The legislation amends Kentucky's warranty reimbursement statute to create a more equitable system to ensure that dealerships and their techs receive compensation for all hours worked on warranty and recall repairs. It also sets a clear procedure for dealership submission of labor rate and parts rate increases to manufacturers.

Reach out to your legislator to share the importance of passing this legislation. We believe that SB 94 is critical to keeping Kentucky competitive with surrounding states when it comes to getting and keeping the best technicians. If you need contact information for your legislator, you can find that [here](#).
